Warranty Certificate

Warranty Guarantor:
 DryDog Barriers, LLC
 P.O. Box 743
 Matthews, NC 28108

| | |
|--|---|
| This Warranty is issued to: SAMPLE SAMPLE SAMPLE | Warranty Start Date: January 01, 2000 Warranty End Date: January 01, 2030 |
| | Warranty Number: SAMPLE |
| | Warranty Duration: This Warranty extends for Ten Years of the structure's life beginning from the date of the waterproofing system application as shown on this certificate. 30 YEAR |

Terms & Conditions

This warranty is from:
 The Imbed Barrier ("Warranty") is provided by the guarantor ("Guarantor") with the name and address noted above as the Warranty Guarantor.

This Warranty is to:
 To you if you are a consumer purchaser ("Buyer") of a new single-family detached residence, or a multi-family residence with single ownership, which has had waterproofing applied to the building foundation walls by a DryDog Applicator.

Subsequent buyers should see the section on "Transferability" below. The foundation walls must be vertical no more than a single story, and made of poured concrete, sealer or unsealed concrete block.

Terminology:
 Throughout this document the phrase "waterproofing system" will appear. Specifically, this only refers to those products that are applied to the structure's foundation walls. This could be any of the following or all of the following but nothing outside of the following, pending on the particular product or outside's discretion: Basement membrane emulsion, Drainage mat, Geo-membrane sheeting, or Drainage. Any waterproofing product used outside of those listed in the foregoing sentence is excluded from any type of warranty coverage.

What is Covered:
 This warranty does not guarantee or provide assurance the intent, such as mold, mildew, fungi or any air quality problems will be prevented, reduced, or eliminated.

This Warranty does not guarantee or provide assurance of any basement. Under normal use and service, your foundation walls should be free of water seepage or leakage through any of the areas that are treated with the waterproofing system applied by the Applicator, outside of the exclusions, limitations, and exceptions set forth below.

What Will We Do If the Product Fails:
 If the waterproofing applied by the Applicator fails, we will either repair or have repaired the area in question or provide replacement of the particular malfunctioning system or its components by which the problem seems to be developing. We will exercise our judgment and shall have the sole option to select the best method by which to remedy the leakage. We will undertake the cost of providing any replacement of the system or components in question that are necessary, and pay for the labor costs required to install or replace the problematic devices within a reasonable time. Our total responsibility during the life of this warranty will be the lower of either a price per square foot calculation that shall not exceed an amount equal to \$2.00 per square foot of foundation wall treated with the system and resulting repair, or an overall credit total of \$10,000.

Costs that You Will be Responsible For:
 To the extent the following applies to your situation, you will be responsible for certain costs associated with repair or replacement of the applied system. Costs that we do not accept are:
 1. Removing or reworking bricks, grout, or other attachments.
 2. Removing or reworking interior or exterior components of the building or wall, which are attached to repair (e.g., stairs, garage, or garage floor, patio or patio floors, porch or porch floors, decks)
 3. Removing or reworking interior furnishings or fixtures, (e.g., tanning, furniture)

system:

- Drainage which does not slope away from the structure sufficiently to drain water away from the structure or which results in a grade the above the applied system that allows water to penetrate above the applied system.
- Insufficient hydrostatic resistance at the exterior base of the foundation walls and allows any floor within the foundation wall that allows water migration through the joints where the floor meets the walls or into the structure through basement floors or drains, or. Defective or inadequately functioning walls or interior finish.
- Contamination on the foundation walls or interior finish.
- Cracking for pipes, cables, ducts and other intrusions into or alterations of the waterproofed walls made after application of the waterproofing system.
- Application of the waterproofing system by a contractor other than a certified DryDog Applicator.
- The use of expansion or contraction devices in the design of the walls structure.
- Any construction technique used by a builder or subcontractor that allows water to enter above, below, or behind the waterproofing system.
- Failure to have a foundation drainage system installed at the base of the foundation according to the Guarantor's application standards manual.
- Guarantor does not warranty any waterproofing system used by its applicator for the wall to floor joint for any masonry slab or wall construction where the bottom of the foundation wall is positioned on the same plane as the top of the floor slab, or pre-cast panel walls regardless of the system used.
- Guarantor does not warranty any waterproofing system used by its applicator for insulated Concrete Forms (ICF) walls that fails to use a pre-formed by-product block for the brick ledge. Brick ledge must be designed by the manufacturer of the ICF to function as a brick ledge.
- Guarantor does not warranty any system that fails due to application error. Any failure that is a result of the applicator not complying with the application manual provided by Guarantor is deemed to be the applicator's responsibility and voids Guarantor from all legal obligations.

No matter by Guarantor of any limitation, term or condition of the warranty shall operate as a waiver or any other limitation, term or condition applicable to the claim, or to any future claim, whether or not a different nature. No delay or failure on Guarantor's part to enforce any right or claim, which it may have hereunder, shall constitute a waiver on Guarantor's part of such right or claim.

Dispute:
 Buyer and Guarantor specifically Agree that any controversy, or claim arising out of this warranty, shall be settled by arbitration in the State of North Carolina (as exclusive venue), administered by the American Arbitration Association under its Commercial Arbitration Rules, and judgment on any award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof.

Transferability:
 This Warranty may be transferred to subsequent Buyers upon meeting specific Guarantor prerequisites, which are as follows: The warranty duration specified above does NOT reset with the transfer of this warranty to another owner. The owner who desires to transfer the warranty to another purchaser must complete the transfer application below and mail the warranty to DryDog Barriers, at PO Box 743 Matthews, NC 28108 at least 30 days within the closing date. To be included with the application is a fee of \$275 in the form of a check or money order. If for any reason the transfer application is denied, the \$275 fee will be refunded immediately.

Claims procedure:
 If leakage occurs when you believe it through the applied system, please notify DryDog Barriers at PO Box 743 Matthews, NC 28108, phone (704) 234-6222. Notification must be within 30 days of the discovery of the leakage. Upon receipt of such notification, Guarantor will issue a prompt investigation of the claim and perform its obligations as required herein.

ABCD COMPANY LTD.
