Android head logo (Image credit: Android Central) Android 10 has been out for more than a year now, and whether you're excited about its new permission settings for apps or the glorious dark mode, there are plenty of reasons to be eager for it to arrive on your phone. Android 11 has already been available for the Pixel lineup since day one. While we are seeing the likes of Samsung and OnePlus devices getting the latest updates, many handsets are still awaiting the update to Android 10. However, as with all Android updates, there's a difference between when Google launches the final build and when the new software actually arrives on your smartphone. We'll be taking a look at all of the major Android phone makers and breakdown when exactly you can expect an Android 10 update for your device. Let's dive a bit deeper and find out which of the best Android phones have been updated to Android 10. Google Pixel Source: Hayato Huseman / Android Central (Image credit: Source: Hayato Huseman / Android Central) Let's start with Google's own phones, the Pixel series.
